

EXPERIENCE ENERGY

AT RINGHALS' INFOCENTER

VISIT OUR EXCITING EXHIBITION

Experience electricity, energy and nuclear power at close range.
We have activities for all ages.

Join us into the world of atoms at Ringhals' cinema and learn how electricity is produced.

Relax at our café and enjoy a part of Ringhals' big art collection.

What is energy? How do we use sun, water, wind, coal, uranium and other energy sources? Produce your own electricity and learn more about how we work with environmental issues!

Turbines, generators and reactor
- how do they co-operate?
Become an engineer for a day
and build your own nuclear
power plant. What safety systems
is in use? Experience a fuel
element in full scale!

Ringhals - a large workplace
with more than 60 different
professions. Experiment to find
the job suitable for you.

**WELCOME TO AN
ENERGIZED VISIT**

DID YOU KNOW THAT ...

- Ringhals produces electricity up to six cities the size of Gothenburg
- half of all the electricity produced in Sweden comes from nuclear power plants
- nuclear power is an environmentally friendly way to produce electricity.

Visit the Infocenter at Ringhals!

Opening hours:

9 pm to 3 pm every weekday.

For more information or booking of a study visit, please call +46 20 66 20 10.
